## Census Notes.

Washington, October 1919.

The facts and figures gathered by enumerators, supervisors and agents of the Fourteenth Decennial Census will have absolutely no effect on the valuation of property for taxation purposes. It is a point to emphasize with all possible emphasis that the Census Bureau is not connected with the tax-valuation of property.

Many people have been erroneously connected with the Census with tax-valuation of property. We hope to avoid any such confusion.

On Monday, October 13, at 4 P. M., at the school building, the regular meeting of the Parent-Teachers' Association will be held.

Parent-Teachers' Association Tickets on sale at both drug stores. Come and help out the Mothers' Club and show your appreciation of good music.

Mrs. Louis J. Schmidt.

The death of Mrs. Amy Alleorn Schmidt, which occurred at the home of her parents, Mr. and Mrs. A. J. Swearingen, at 7:30 o'clock Sunday morning, October 5, 1919, caused a distinct shock to the town. While it was known that she was failing in health for the past two years, no one, not even her own household, thought the end was so near.

The deceased was born in Washington county on Aug. 25, 1872, consequently, she was 47 years, 1 month and 10 days old at the time of her death. She was married to Louis J. Schmidt of Hondo on November 30, 1892. She is survived by her husband, Mr. L. J. Schmidt, her father and mother, Mr. and Mrs. A. J. Swearingen, and her sister, Mrs. Hugh Woods, of Seguin.

Decedent early in life became a Christian and united with the Bethel Baptist church at Bryan, Texas, and later her membership was placed with the Hondo Baptist church. All through life she has been a faithful and constant member of that christian organization.

The funeral services were conducted at the Hondo Baptist church by pastor Arthur S. Allen, after which the body was tenderly laid to rest in the Oakwood cemetery at five o'clock Monday afternoon, amid a number of sorrowing relatives and friends who were present to pay a last tribute of love and respect to one that will long be held in kindest and fondest remembrance by them.

Mrs. Schmidt had been in failing health for the last two years and despite all that medical science and nursing could do, the family and friends realized that the grim messenger of death could not long be stayed. A good woman has gone to her reward and long after time has healed the wound made in the breast of Mother Earth there will be friends mourning the loss of the loving deeds done by her while in this world. It is those who knew her best who mourn her most.

To the stricken husband thus bereft of his dearly beloved wife and to the sorrowing relatives the sympathy of our entire people goes out in unstinted measure, all realizing, however, that words of condolence to them are meaningless. The balm to heal their wounded hearts must come from higher than human source.

CONTRIBUTED.

The out of town relatives attending the funeral of Mrs. L. J. Schmidt were her only aunt, Mrs. T. B. Martin, and so of Bryan, Texas, Mr. and Mrs. Hugh Woods of Seguin, Texas, Mrs. Britton of Alta Loma, Texas, and Mr. B. F. Schmidt of San Antonio, Texas.

## Baptist Church.

Pastor Allen and wife, and others from Hondo are attending the Del Rio-Uvalde Baptist District Association this week at Uvalde. They will be home for the regular services Sunday morning and evening.

## Bishop Drossaerts Coming.

Rev. Arthur J. Drossaerts, D. D., Bishop of San Antonio, will arrive in Hondo on October 18th. He will officiate and preach at St. John's Ev. Church on Sunday morning, Oct. 19, and will administer Confirmation at the Mexican Church in the afternoon.

## Lutheran Church.

At the business meeting of the congregation of the Lutheran Church Rev. A. Falkenberg, who had resigned, was re-elected. R. E. Leinweber and C. J. Bless were also re-elected as trustees. Rev. A. Falkenberg will assist in the services of the mission festival at Quibi Sunday, October 19th. There will be no services held at the Hondo Lutheran Church on the 19th.

## Methodist Church.

Preaching at the Methodist Church Sunday, 11.00 a. m., and at 8.15 p. m. This is the last Sunday of this conference year.

You are invited to these services.

The mass meeting called by the rural telephone subscribers in reference to the raise in rates to take effect Oct. 1, 1919, was called at 2:00 p. m. Saturday, Oct. 4, 1919, to see whether it would justify the rural subscribers to build and operate their own exchange. Mr. Harry Martyn, Dist. Coml. Mgr., and Mr. J. B. Hurt, local manager, gave an explanation as to why the company had to get more revenue to furnish service. They agreed that the raise was justified; through an investigation they found that it would cost them more to operate and maintain their lines than the raise.

## WILSON'S WORDS CLEAR UP DOUBT

CALIFORNIA THROWS OVER ITS  
LEADER, JOHNSON, AND  
RALLIES TO LEAGUE.

### WEST GIVES HIM OVATION

All Doubtful Features of Pact Are  
Explained Away By President, and  
Former Doubters Hasten to Give  
Him Their Support.

(By Independent News Bureau, formerly  
Mt. Clemens News Bureau.)

Aboard President Wilson's Special Train—A continuous ovation along the Pacific coast and then on his eastward way back toward the capital was given to President Wilson as he came toward the end of his month daylong speaking tour in behalf of the League of Nations. California, particularly the delightful city of Los Angeles, went wild in its enthusiasm for him and his advocacy of the League, and it was in that state, perhaps, that he did his most successful missionary work. Hiram Johnson, California's former governor, now her United States senator, and considered by her as the most likely Republican candidate for the presidency in 1920, had before the arrival of President Wilson, convinced a great number of citizens that the League as at present formulated was not a good thing. He had told them that the United States, because of it, would be drawn into every petty European quarrel; he argued that we would lose our sovereignty by joining with the European nations. He had blamed the president for assenting to the possession by Japan of the Peninsula of Shan Tung in China.

### BUREAU CHANGES NAME

The Mount Clemens News Bureau, which has been furnishing reports on President Wilson's tour in behalf of the League of Nations to 5,500 papers, has adopted a new name and will hereafter be known as The Independent News Bureau.

But Mr. Wilson, with clear logic and with compelling eloquence, answered to the entire satisfaction of California's people every objection which Senator Johnson had made to the League. And thousands of the state's citizens deserted the Johnson standard immediately and rallied to the support of the president. More than that, they came forward and said, "We were against you, Mr. President, but you have cleared everything up and now we are with you heart and soul." Still more than that, they let Senator Johnson know that they were no longer with him and that they disapproved of the speaking tour which he himself was making in opposition to the League and so powerful was the volume of public opinion which reached him, that the senator almost immediately abandoned his tour. The Shan Tung question, because of the anti-Japanese feeling which undoubtedly exists along the Pacific coast was the most serious which the president had to answer. He explained to the people that he had been powerless to prevent the rich peninsula from being given to Japan. England and France, through a secret treaty, had promised it to Japan for entering the war and remaining in it. That treaty had to be carried out. Anyway it was not China that was losing Shan Tung, but Germany, which had seized the territory from China in 1898 and held it ever since. Japan had promised, the president explained, to return Shan Tung as soon as the peace treaty was ratified and it was only through the ratification of the treaty with the League of Nations inclusion, that China could ever expect to get her former property back. And she surely would get it back, he declared, through the ratification of the League. Therefore, through the same instrumentality no other nation could again prey upon the "Great, patient, diligent, but helpless kingdom." As to our being drawn into any European conflict. The president pointed out that no direct action such as the sending of troops to any part of the world to maintain or restore order could be taken by the Council of the League without a unanimous vote of the council members, therefore our vote could at once negative any such proposition as sending our soldiers where we did not want them sent. Besides, Mr. Wilson argued, "If you have to quench a fire in California you don't send for the fire department of Utah." But, he argued, there probably never will be another war, if the League is established, for the members promise either to arbitrate their difference and accept the decision of the arbitrator, lay the differences for discussion and publication before the Council of the League for a period of six months, and then, if possible, accept the council's advice. That failing, they agree to refrain from war for a further period of three months and nine months of "cooling off," the president contended, would prevent any armed conflict. These clear explanations satisfied every reasonable hearer and destroyed the "Bugaboos" which Senator Johnson and others had raised against the League. Through rugged Nevada into Utah, the land of Mormons, the president swept to find that those fine people were heartily with him for the League and a permanency of peace.

## AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Repatriating Prisoners.

When hostilities ceased there were in the hands of their Teuton captors millions of prisoners of war of all Allied countries, the terrible plight of whom is well known to all the world. Red Cross workers, carrying relief supplies of clothing, medicines and supplementary foodstuffs, penetrated the Central Powers as soon after the armistice as the military authorities would permit, and the work of getting the prisoners started back to their own countries was soon begun. In this photograph a group of these men are seen packed up and restored to something like normal health, awaiting the train that will carry them out of bondage.

## AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Home Service.

One of the finest constructive activities of the American Red Cross in the war was Home Service in the United States, the friendly connecting link between the soldier far from home and his loved ones. This branch of the work which under the peace program of the Red Cross will be expanded to benefit all who need the assistance it can provide, is directed by scientifically trained social workers. Since instituted Home Service has assisted 800,000 soldiers' and sailors' families. This photograph shows one of the innumerable Home Service information bureaus where service men and their families could bring their problems for solution.

## NIGHT AND DAY CAMP IS LIFE SAVING STATION

Tuberculosis kills 150,000 persons in the United States every year. These two women escaped. They are shown in the Night and Day Camp at the St. Louis Society for the Relief and Prevention of Tuberculosis. They are among the fortunate ones because they knew how to take care of themselves when this great menace threatened them. They knew the cure lies in plenty of fresh air, even if the temperature is away below zero, sunlight, good food and rest under proper medical supervision. Tuberculosis is not only curable but is preventable as well. The prevention lies largely in right living, in building up a strong bodily frame. Eight out of ten persons are infected at some time in their lives, according to figures of the National Tuberculosis Association, the leading authority in the United States in the fight upon this disease. This organization sponsors for the annual Red Cross Christmas Seal sale, from which the money is carried on the work throughout the year are chiefly derived.

## WOMEN HAVE BIG HEALTH ADVANTAGE

Benefit of Fresh Air and Sunlight Do Much to Check Progress of Tuberculosis.

## WOMEN IN CLOSED WINDOWS.

The Tuberculosis Association, which sponsors the Annual Sale of Red Cross Christmas Seals, reports 150,000 Deaths Each Year From the Disease.

Who live in the smaller towns and farms have a great health advantage over the city dwellers in that they have an abundant supply of fresh air and sunlight.

Two gifts of nature, so lavishly bestowed, are not always appreciated to their fullest extent. They are the strongest weapons against the progress of tuberculosis, or consumption, as it is sometimes called.

Consumption is not unknown in the city districts. The death rate is as great in these sections as in the more crowded localities, chiefly because of carelessness or indifference to health.

Indeed, in the farm houses and in the smaller cities and towns that cannot have an outdoor porch. On the contrary, we find that the windows of sleeping porches in the home are shut tight, and the belief that night air is harmful.

It is the way for disease, especially tuberculosis, which generally attacks the lungs.

Plague Kills 150,000 a Year. The white plague claimed 150,000 victims in the United States last year. A million Americans are suffering from it today. These figures are taken from reports of experts in the country and sent to the Tuberculosis Association, the leading authority in the country to combat the disease. This organization is for the Red Cross Christmas Seal sale, from which its financial support is derived.

Medical science has proved conclusively that tuberculosis is curable and preventable by this simple and necessary means. Most tuberculosis victims are between the ages of fifteen and forty-five.

Half Billion Loss Annually. The years when people are most active, the years of their production. The snuffing out of their usefulness means a loss to the country of nearly half a billion dollars.

It is the cheapest of medicine. Sleeping porches are being built for the sick. They help well, and the country has this aid to healthy living at a less inconvenience than ever before.

Help directly by seeing that your family are living under the best conditions possible.

## You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

## AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Serbia.

As far back as the first winter of the war, the Red Cross sent to Serbia a sanitary commission that effectively checked the scourge of typhus, but after the United States entered the conflict, the Red Cross was able, in August, 1917, to send a full commission that carried on extensive relief operations among the suffering refugees of the tortured nation. Hospitals were established, the refugees fed, clothed and given medical attention, the army supplied with much needed dental treatment, farm machinery, and seeds provided to help the Serbs redeem their land to productivity, and, not least, measures undertaken for the succor of the children. The terrible condition into which these helpless victims of the war had fallen is well portrayed by this photograph of a little Serbian girl wearing the rags and expression of hopeless dismay that were all she possessed when the Red Cross came.

## Japanese Gala Day.

Of all floral festivities, Japan's Feast of the Cherry Blossom is the most generally observed. Practically every town and village throughout the land has its own particular cherry tree for honoring at this great occasion, but the most famous of them all is that at Kioto. Here early in April is to be seen such a sight as can be witnessed nowhere else in all the world. There are seldom fewer than 1,000,000 persons present, who gather from all parts of the empire. Everywhere is feasting, dancing and merry-making.—"Flaneur," in Indianapolis Star.

## Centipede a Fly Killer.

The centipede is found pretty much all over the world. The species common in the United States Scutigero foreceps, was reported over twenty years ago as devoting the nights to killing house flies. Later an observer detected one in the act of capturing a butterfly much larger than itself. The insect remains concealed during the day under doorsteps or window frames, or in any crevice sufficiently large to hide its numerous appendages.

WANTED—party to operate boarding house for five or six white men of factory construction force, for about 3 months. Location, Knippa, Texas. Will make a favorable proposition. Texas Trap Rock Co., San Antonio, Texas. 1t.

Mr. and Mrs. Claud Gilliam returned last Sunday from San Antonio where they had been on a visit to their first grandson, recently born to Lieutenant and Mrs. Chas. Gilliam. Grandpa Gilliam on his return was enthusiastic over this addition to the family, and asserted he favored him, however, we all wish for the newly born a long and prosperous career despite this handicap on the very verge of his life.

The amounts borrowed by the various Farm Loan Associations of Medina county from the Houston Federal Farm Loan Bank is mounting to huge proportions. According to records kept by Judge H. E. Haass the bank had loaned to 90 members of the Hondo Association, up to Oct. 1, a total of \$311,880; members of the Devine Association, \$53,850; members of the Yancey, \$37,500; while outsiders owning land in the county had secured loans aggregating \$5,800, making a grand total of \$409,030 loans placed in the county. Several more heavy loans are in process of negotiation, and it is a safe prediction that loans exceeding a half million dollars will be placed in this county before the end of the year.

Pocket Knives, Holloway Bros.

That the 1919 cotton crop for this section of Medina county will be the shortest on record is indicated by the statistical record kept in the office at the Southern Pacific depot. Up to noon Thursday a total of but 112 bales of cotton had been shipped, against a total of 1,023 bales shipped up to same date last year. As we all know, last year was the shortest crop, up to that time, that was ever raised in the county since our people took up the poverty breeding custom of planting cotton, but indications now are that it will prove a banner year compared with this year.

Write your Insurance with O. H. Miller, Hondo, Texas. 47.

Thus far taxpayers are not making the collector's office force work overtime, however some few have taken out receipts. Judge A. M. Lamm was the first man in the county to take out his tax receipt, but as too numerous summers and winters have relieved him of the necessity of owning a poll tax receipt as a prerequisite to vote, the distinction of owning the first poll tax issued in Precinct No. 1, fell to E. R. Leinweber, with J. H. Meyers as a close second. The first poll tax receipt issued in Precinct No. 16, South Hondo, went to Julius Steinhardt.

Get it at Windrow's Drug Store Telephone 124.

Misses Novellie and Edna Heyen went to San Antonio last Saturday to visit their brother, Harry J. Heyen, in the hospital at Fort Sam Houston. It will be remembered by the people of Medina county that Harry, one of our gallant soldier boys, received a severe wound to one of his legs in France, which has kept him on crutches since his return. The government surgeons recently operated on the injured leg and it is now hoped that he will soon regain normal use of the injured member.

Johnnie Carter, after a service of eighteen months in Uncle Sam's navy, reached home last Monday with an honorable discharge in his possession. Johnnie saw lots of service while in the navy, making four trips across the Atlantic. He was also a member of the Pacific fleet, recently reviewed by President Wilson on his visit to the Pacific coast. Like all the other boys, he is delighted over again getting back into civilian life, and the people of Hondo are glad to welcome him home.

The great stone tower in this photograph is Rumeli castle, overlooking  
 the Bosphorus at Constantinople. It was built in 1452 as a fortification against  
 the Moslem advance on the Sublime Porte. The tower is one of the many  
 picturesque buildings in or about the great city, which under the terms of the  
 peace treaty ceases to be the capital of an empire.  
 Turkey will be several independent states, under governments supervised  
 by the allies and the United States. Turkey is rich in natural resources, and  
 all the new states will need to make them productive and prosperous is an  
 injection of occidental hustle and a general adoption of western machinery—

**Honor Is John Wesley's.**  
 The term "Methodist" was first ap-  
 plied to Charles Wesley, and not to  
 John Wesley, the real founder of  
 Methodism. And it was applied as a  
 term of ridicule, or as an epithet.  
 Charles Wesley was a student at Ox-  
 ford, where, as he says, he began "to  
 observe the method of study prescribed  
 by the university." He must have  
 been a stickler for "method," for he  
 was always using the word. "This  
 gained me the nickname of Methodist,"  
 he says in one of his letters.

**First Safety Bicycles.**  
 The first of the safety bicycles was  
 put on the market in 1880. In this the  
 high front wheel was reduced and the  
 rear wheel was about two-thirds the  
 height of the front one. The machines  
 with wheels of the same size appeared  
 in 1885. Bicycling began to be popular  
 about 1891, and the "craze" reached its  
 height about 1895, when wheels had be-  
 come low enough in price to be within  
 the means of the multitude.

# AROUND THE WORLD WITH THE AMERICAN RED CROSS.

On German Soil.

In the City Square of Treves, Germany, headquarters of the allied military forces, an ancient cross surmounting the monument marks the city's center of traffic. For this reason American Red Cross officials converted it, as shown by this picture, into a directory of all Red Cross activities in the city.

Wormy children are unhappy, puny and sickly. They can't be otherwise while worms eat their strength and vitality. A few doses of WHITE'S CREAM ERMIFUGE performs a marvellous transformation. Cheerfulness, strength and the rosy bloom of health speedily return. Sold by W. H. Windrow.

## AT AGE OF SEVENTY SHE GAINS 25 POUNDS.

Since Taking Tanlac Mrs. Rollins Feels Better Than In Twenty Years.

"I am seventy years old and have been in poor health for a good many years, but since taking Tanlac I feel better in every way than I have in twenty years," said Mrs. M. B. Rollins, of 110 West 39th Street, Seattle, Wash., recently.

"For twelve years," she continued, "I suffered constantly from stomach trouble and what I ate caused me so much misery that I dreaded to see meal time to come. I suffered terribly from rheumatism and sometimes my feet and legs were so badly swollen that I couldn't walk and my arms would get so stiff and sore that I couldn't use them at all. My nerves were in such an awful condition that the slightest noise would upset me and I could never get a good night's sleep. I became so weak and rundown that I gave up and went to bed where I lay for five long weeks.

"I heard so much about Tanlac that I asked my son to get me a bottle and after taking a course of the medicine I am perfectly well again. I feel twenty years younger and am strong enough to do all my housework without any trouble. My appetite is fine, I eat anything I want and never suffer any pain afterwards. The rheumatism has entirely gone, my nerves are all right and I sleep like a baby every night. The way Tanlac has overcome my trouble and built me up is like a miracle and any medicine that will do that much for a person of my age is worth its weight in gold."

All druggists sell Tanlac.

## Local, Personal and Business Items from This Busy Burg

CASTROVILLE, OCTOBER 9, 1919

ED. HUEHNER, LOCAL REPRESENTATIVE

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

Rain, rain, and then some more. The farmers are loosing the biggest part of their corn crop as the recent storm blew the corn down and, naturally, the rain will sprout.

Rev. Walter Kralik left Saturday morning for Karnes City to assist the local pastor in conducting mission services Sunday.

The Married Folks' Dance came on schedule time and was very much enjoyed by both, young and old.

Miss Maude Neuman, while hunting Friday evening with some friends on the Bader Settlement road, was bitten in the right foot by a rattlesnake. She was rushed to town and Dr. Fitzsimon was summoned who dressed the wound. We understand the young lady is doing fine.

K. Mueller, our shoemaker, left Sunday for San Antonio, on business bound.

Mr. and Mrs. Willie Biediger, Mrs. Mary Biediger and J. J. Biediger spent Sunday in San Antonio.

Mr. and Mrs. Louis Mangold and children, and Lawrence Rihn were at the Medina Lake Sunday.

Mr. and Mrs. Alfred Mann and son, Oran, spent Sunday in San Antonio.

Mr. and Mrs. Gus. Keller and children, and Mr. and Mrs. Josie Keller and children were here from Lacoste Sunday.

Mr. and Mrs. Albert McKinney and family have moved here from San Antonio and have opened a vegetable and fruit stand in the Zuercher building in the Plaza.

Miss Lorine Wernette and uncle, John Hans, visited relatives on the Potranco Sunday.

Sam Tschirhart is the proud owner of a new car.

Mr. and Mrs. Louis Scherrer and daughter and Monroe Taylor spent Sunday in San Antonio with relatives.

Mrs. Adam Droitcourt was taken suddenly ill the first of the week, at this writing she is improving.

Mrs. B. Hans returned from a two week's stay with Mr. and Mrs. Eugen Jungman of Potranco.

Mrs. Willie Tschirhart and Mrs. Arnold Oefinger of Sauz, were shopping here Friday.

Dr. and Mrs. McCauley visited at the Montgomery ranch Saturday.

Frank Tschirhart and family were here from Pearson Saturday.

Louis Haegelin and family of Pipe Creek were guests of Mr. and Mrs. Emil Haegelin the week end.

Mrs. Louis Scherrer, Miss Mollie de Montel, Miss Muriel McCauley and Monroe Taylor spent Thursday at Medina Lake.

Mr. and Mrs. W. W. Wernette and Miss Lenora Tondre were here from Yellow Bank one day this week. We understand Miss Tondre will teach the Yellow Bank school for the term.

Miss Alice Geant is the proud owner of a new piano.

Mrs. Mary Zizelman and daughter, Mrs. Carl Richter, and baby, of San Antonio, visited Mr. and Mrs. Wm. Zizelman last Sunday.

Mr. and Mrs. Joe Tschirhart Jr., and Mr. and Mrs. Albert Tschirhart of Noonan were here for the married folks' dance Sunday evening.

Mr. and Mrs. Eddie Haby of Dunlay took in the dance here Sunday night.

### An Agreeable Surprise.

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, Clark Mills, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy.

Race riots are reported from many places over the country.

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

### The Woman's Tonic

She writes further: "I am in splendid health. . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

The assessed values for the state of Texas in 1919 are \$3,100,000,000. In 1905 they were \$1,139,000,000. The state tax rate in 1905 was 33 cents, and at present it is 75 cents, the constitutional limit. In 1918 the tax rate was 55 cents, which proved to be insufficient to cover the expenses.

### Constipation.

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.

### Couldn't Get To Hondo.

After holding an enthusiastic meeting and appointing a committee to attend the Hondo County Good Roads meeting, it was impossible for any one to go because of washed out roads and bridges and mud. Court is near us and should it be rainy about that time, we cannot attend without going via San Antonio. — Devine News.

### Physicians Wanted.

In order that every possible contingency may be provided for in the event of a recurrence of influenza in epidemic form, I am now calling upon the medical profession for 100 volunteer physicians who are willing, in case the necessity arises, to serve as acting assistant surgeons of the United States Public Health Service, co-operating with the State Board of Health, at a salary of \$200.00 per month, \$4.60 per diem for subsistence, together with railroad fare.

It is the desire of the United States Public Health Service and the State Board of Health to enlist 100 physicians who are willing to go to any designated point in the State and do relief work during the possible epidemic of influenza and without any charges for their services other than that above indicated.

Physicians desiring to enlist in this volunteer corps may do so by filing their applications in writing with me. All applications received will be duly recorded and given careful consideration in the order in which they are received.

Very truly yours,  
C. W. GODDARD, M. D.,  
State Health Officer.

Indigestion, Billiousness, Constipation.

Chamberlain's Tablets have restored to health and happiness hundreds who were afflicted with indigestion, biliousness and constipation. If you are troubled in this way give them a trial. You are certain to be pleased for they will benefit you.

### LaCoste Ledger Laconics.

Mrs. Don Herzing and baby of Del Rio are visiting relatives here for several days.

August Wipff of Devine passed through here Tuesday from Boerne.

Mr. and Mrs. Frank Keller and daughter, Octavia, and Mrs. Edmund Keller were in San Antonio on business Tuesday.

Joe Adam was the only man from this community as far as we could learn that attended the mass meeting for good roads at Hondo last Thursday. Mr. Adam informs us that there was nothing discussed for immediate work on the damaged roads and bridges to make it possible to go from one town to the other, the only thing discussed was the bond issue. The bond issue is all right but what we need in this country is immediate relief.

Mesdames W. H. Hawkes and Fred Hawkes and baby were visiting relatives in Del Rio the fore part of the week.

Mr. and Mrs. Frank Biediger of San Antonio moved to our town Tuesday, and took charge of the City Hotel. Mr. and Mrs. Henry Biediger, former proprietors, moved to their home recently purchased from E. W. Tschirhart of Riomedina.

W. H. Hawkes returned home Friday night after visiting relatives in Weimar for a few days. He was accompanied home by his daughter, Miss Helen, who had been visiting there the past weeks.

### More Than Enough Is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Tablets and you will soon be all right again.

## PE-RU-NA

### Worth Its Weight In Gold

You cannot mistake the words of Mr. W. W. Northrup, of 908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him:—

"PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After using half a bottle of PE-RU-NA was much better. I would cough up chunks of phlegm and mucus, my eyes itched and bothered me. Judging from the symptoms given in your almanac it was catarrh. My stomach is in much better condition since using your medicine."

"Use this testimonial, if you wish. Don't hesitate to advertise the merits of PE-RU-NA."

(Signed) W. W. NORTHROP.

There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA.

### Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup and whooping cough. From its small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case.

## INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you should. Belching, sour stomach and bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also most excellent for flatulency. Sold everywhere at 25c.

## 7,450,200 Deaths In War—Total Cost to United States \$21,850,000,000.

American casualties during the 47-day Meuse-Argonne offensive aggregated 120,000 men, or 10 per cent of the total of 1,200,000 engaged, according to a "statistical summary of the war with Germany," prepared by Col. Leonard P. Ayres, chief of the statistical branch of the general staff, and published by the war department.

"Of every 100 American soldiers and sailors who took part in the war with Germany," the report said, "two were killed or died of disease during the period of hostilities. In the northern army during the Civil war the number was about ten.

"Among the other great nations in this war between twenty and twenty-five in each 100 called to the colors were killed or died."

Best information obtainable by the general staff places the total battle deaths for all belligerents at 7,450,200, divided as follows:

Russia .....	1,700,000
Germany .....	1,600,000
France .....	1,385,300
Great Britain .....	900,000
Austria .....	800,000
Italy .....	330,000
Turkey .....	250,000
Serbia and Montenegro .....	125,000
Belgium .....	102,000
Roumania .....	100,000
Bulgaria .....	100,000
United States .....	48,900
Greece .....	7,000
Portugal .....	2,000

American participation is summarized in the report in the following table:

Total armed forces, including army, navy, marine corps..	4,800,000
Men who went overseas.....	2,086,000
Men who fought in France.....	1,390,000
Tons of supplies shipped from America to France.....	7,500,000
Total registered in draft.....	24,234,021
Total draft induction.....	2,810,296
Cost of war to April 30, 1919.....	\$21,850,000,000
Battles fought by American troops.....	13
Days of battle .....	200
Days of duration of Meuse-Argonne battle.....	47
American battle deaths in war.....	50,000
American wounded in war.....	236,000
American deaths from disease.....	56,991
Total deaths in the army.....	112,422

Under the head of "Sources of the Army" the report shows that 13 per cent came from the regular army, 10 per cent from the National Guard and 77 per cent from the draft.

A concise history of the military operations in which American troops took part is given in a chapter headed "Two Hundred Days of Battle." Attention was called to the fact that "two of every three American soldiers who reached France took part in battle."

## BULWARK AGAINST WINTER SHORTAGE

Some Facts About Cold Storage and the Charges of Manipulation and Exorbitant Prices.

Once again the subject of cold storage has come into the limelight of public attention; and this time in connection with the nation-wide search after the cause for the high cost of living.

There can be no argument in behalf of hoarding and holding back food supplies for speculative profits. But this is a matter quite apart from the true and legitimate purpose of cold storage; and, unfortunately, because of the much agitation and damaging publicity that have centered about the subject from time to time, the real service performing function of cold storage has been largely obscured.

### Laying in Winter Stocks.

City-wise people, and even country-wise people, have long since forgotten, amidst the conveniences of modern life, that there was a time in the history of our country when "laying in a winter's stock" devolved upon each household individually. Today, one does not even need to remember that eggs are not an all-year-around product; that butter is produced in scant amount in the winter, and cheese likewise. Not a few would be completely surprised to know that even meat production has its seasons of scarcity. The buyer for the household in these days simply goes to the store, any day in the year, expecting to find these and similar commodities on the market.

### Are Storages Overstocked?

However, we are told that storage stocks of certain commodities are at the present above the normal as compared with this time last year. It has been computed that the combined excess of a number of important foods in cold and dry storage amount to 19 per cent. While on the face of it this looks like undue hoarding of reserves, yet it must be remembered that comparisons with last year are altogether misleading. Demands for a great number of commodities have increased tremendously. Our exports for June were double what they were a year ago, and 40 per cent of these exports were foodstuffs.

Moreover, our reserves last year were inadequate. Those who recall some of the extraordinary prices of certain foods last winter and spring know precisely what it means to have too small holdings in storage. That we are better prepared for next winter than we were for last should not be used as the basis of a wholesale condemnation of our methods of providing for our future wants.

### How Prices Are Determined.

Cold storage has been criticised severely as an instrumentality that lends itself easily to the taking of unfair profits. Without a question its ability to extort has been grossly exaggerated. Storage warehouses are scattered throughout all portions of the United States and their contents are owned by thousands of competing firms and individuals. About half the storage space in the country consists of public warehouses that rent space to whoever wants it, either for small lots or big ones. Tabulated figures of the amounts in storage are gathered and disseminated by the government monthly; and the amounts in holding from month to month figured against what should normally be in storage during those months (or the estimated demand) form the basis for prices.

### Some Figures on Profits.

But the best information as to profits in the cold storage business consists of actual figures, and such are published regularly by the federal Department of Agriculture. These show, for instance, that in the season of 1915-1916 butter stored in June and July at an average of 26.64 cents a pound, sold from November to March at an average of 27.45 cents a pound, giving a gross profit of 9.81 cents a pound, or scarcely enough to pay for storage and nothing for net profit or interest on investment. In 1916-1917 the gross profit was 7.79 cents a pound, and in 1917-1918 it was 5.88 cents. These gross amounts must cover storage charges and interest on the money tied up for several months before the net profits are arrived at. It is apparent from these figures that storing of foods is an uphill and downhill business with its fat and lean years, and affords an average profit which is not excessive in view of the risks that are run. Figures on storage eggs for 1915-1916 show a net loss of 2.2 cents a dozen; for 1916-1917, an unusually prosperous year, the net profits were 5.54 cents a dozen; and for 1917-1918 there was a net loss of 1.42 cents a dozen.

Extravagant charges of manipulation and control of prices are preposterously absurd in view of these seasons of losses. The ups and down of profits simply indicate the hazards of the game; for the best laid plans of men can not foresee when a warm spell may come which will start the hens to laying, nor, on the other hand, a cold snap that will shut off current production entirely. Year in and year out, as the figures would indicate, the consumer pays but a modest sum for the blessing of cold storage, which takes upon itself, with all risks involved, the task of laying in his winter stores for him.

## Rest, the Remedy

Overwork Cause of Many Unaccounted for Ailments

When we become tired all sorts of things may happen. Sometimes we may have a sense of dizziness or of nausea. In that case the stomach is the weak point and the symptoms are from weariness of that organ. The eyesight of some persons is affected by fatigue, and they think they are going blind.

Occasionally, notes an authority, our symptoms convince us we are losing our minds. Every person is familiar with the little lapses that are so annoying—the inability to remember a name soon after it has been heard, the failure to retain the sense of a page just read, the sense of being far away, of general unreality. All of them are evidence of fatigue.

One of the curious things about getting tired is that often we are not conscious of it at the time, or even the next day. People who work long hours on Saturday often do not feel the effects until Monday or Tuesday.

There are very few diseases that are helped by drugs. Not more than six or eight out of 150. But poor health pretty generally is improved by rest. Sleep, of course, is the great rest agency. Most people need at least eight hours; more rather than less. Nobody need worry about sleeping too much.

## Hat of the East Indian Takes Cloth Thirty Feet Long and Three Feet Wide

American women haven't a thing on a man from India when it comes to wearing expensive hats. And they'll have to get busy to crowd as much on their heads as do the men from Bombay, Calcutta and Punjab, for those red, yellow and white turbans which are seen adorning the heads of some of the visitors from India are as long as three tablecloths put end to end.

Each turban is made up of 90 square feet of cloth, 30 feet long by three feet wide. If one of these dark-skinned men from India should lose his silk turban and try to duplicate it, he would have to pay at least \$30 for it. But over in India he pays only about one-tenth this price.

The average person wonders why men in those burning countries wear a hat which covers the head as completely as the hood of an Eskimo. Both do for the same reason; one seeks protection from the heat and the other from cold. The heat of one's own body is far more endurable than the burning rays of India's sun.

A man wears a turban 30 feet long, while a small boy wears one from 10 to 15 feet long. But Indian youngsters have found that the cap of the American boy takes far less time to put on than his turban, and they are generally discarding the headgear of their fathers for that worn by America.
